SM

## “PREPARED IN ADVANCE”

Every year, millions of people are victims of violence. The first, and most important, step toward changing this is educating people about how to recognize and reduce their risk of becoming victims of violence. Everyone should be “*Prepared In Advance*”.

## OUR GOAL

The goal of this program is to educate men, women, and teenagers about how to recognize and reduce their risk of becoming victims of violence.

## GENERAL SAFETY TRAIN THE TRAINER COURSE

Elements of this course include:

1. Training and Certification as a “**Personal Safety Coach**”. This is a four-hour course which qualifies participants to present the Equalizer Materials to different groups. A PowerPoint Presentation, Personal Safety Coach Manual, and a Certificate of Completion are included with Certification.
2. The Student Guide, “**A Guide To General Safety**”. This is a 31-page guide which shares vital information concerning violence including: assault, sexual assault, rape, date rape, stalking, how to avoid possibly dangerous situations, what to do if one becomes a victim of violence, who can help in the aftermath of a violent attack, and the law and self-defense. Written for men, women, and teenagers, this guide contains a written exam in the back.

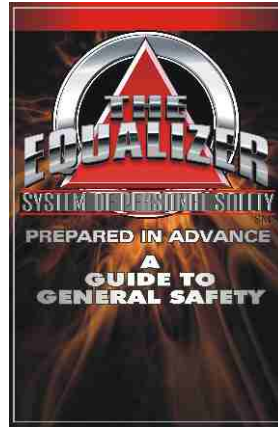

## WHAT DOES IT COST?

### The Student Guides:

Contact us for smaller orders.

Quantity	Price/booklet
